February 2024

Daily at home dental care is the best way to prevent periodontal disease.

Do you know what's involved in a professional teeth cleaning?

One of the many assessments our vets will do is evaluate your pet's oral health. If warranted, a professional teeth cleaning and treatments will be recommended. It will range from a routine cleaning to a life changing procedure that will increase the quality of life for your dog or cat. [Click here to learn more!](#)

Meet Amber, RVT

Amber joined our team in 2017. Her skillset as a Registered Veterinary Technician is utilized in our surgical and teeth cleaning procedures. [Click here to learn more!](#)

Dental Month

Why is anesthesia required for professional teeth cleanings and treatments? [Read our blog to find out!](#)
