

SEPTEMBER 2024

National Service Dog Month

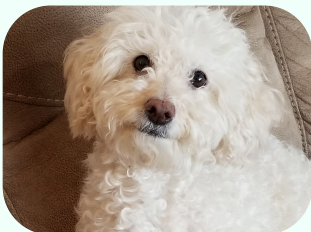

The Integral Role Service Dogs Play In People's Lives

Service dogs are specially trained animals that provide invaluable assistance to individuals with disabilities. Their non-stop dedication to their job makes them essential partners to their handlers. Find out what medical emergencies they can alert to!

[Learn More](#)

National Puppy Mill Survivor Day is September 30th

A day to celebrate all the dogs who made it out of puppy mills as well as remember those who didn't. Be sure to do your research before purchasing a pet. Supporting local shelters through adoption or buying from a responsible breeder is the way we can right this wrong.
