

JANUARY 2025

Walk Your Pet Month

Keep your pets moving in the New Year

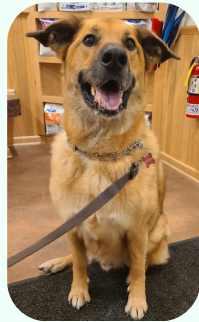

With the inclement weather upon us, outdoor exercise can be limited. In coordination with our Aurora K9 Fit rehabilitation services, review the blog we created regarding great at home or in-clinic exercises. Our rehabilitation practitioners also extend care to patients not seen in our general practice. Our underwater treadmill helps your pet go the extra mile!

New Year New Me: A weight loss success story

158lbs

Hardy

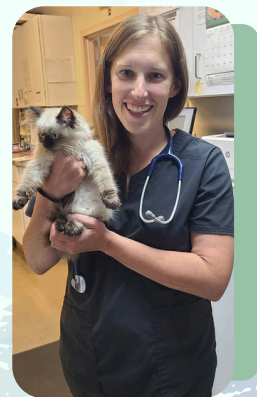

93.6lbs

Congratulations to Hardy and his owner Nate. In April 2023, Hardy Found himself in need of a new home at 8 years old. His new owner Nate made weight loss a priority. Now down over 65 lbs, he is doing better than ever. Make this the year that your pet follows in Hardy's paw prints!

Let's get moving!

Have you met Dr. White?

Dr. White returned to our practice in October 2023. A familiar face as she not only grew up in the area, but also shadowed at our clinics before starting vet school. We are excited that Dr. White chose to return and treat patients in our practice. Schedule an appointment for your pet with her at our Mantua Veterinary Clinic location.

Meet Dr. White
